NEWPORT

STEAM Planing, Sawing & Grist

MILL.

THIS establishment is now in suc-

cessful operation, in Bull street,

and prepared to execute all kinds of

work usually done at similar concerns.

The PLANING MACHINE is new; and,

possessing advantages over most of the

machines in use at the present day, is

prepared to furnish specimens of work,

equal at least to those of any other estab-

lishment in the United States.

CIRCULAR, and UPRIGHT SAWS, for

splitting boards, plank and timber, and

fitting various kinds of lumber for car-

penters' use, are also attached.

The GRIST MILL comprises two pair

of French Burr Mill Stones, which are

now in such high repute and general use

throughout the country.

As it can hardly be expected in first

starting an establishment of this kind, in

this place, that the patronage will be suf-

ficient to warrant the hope of steady

employ, and that the public may depend

upon having work done at stated times,

without disappointment, we propose to

start the mill every Tuesday morning, and

keep it running three days in each week

—say Tuesday, Wednesday and Thurs-

day—and occasionally other days of the

week, as circumstances may require.

In thus establishing what we believe

has been long needed in Newport, and

which all must acknowledge to be a

By the Mail.

The Jury impanelled at Baltimore for the purpose of deciding upon the state of mind under which young Gardner attempted the assassination of Mr. Wickliffe, the Post Master General, has found him insane, and the Court has discharged him from the commitment by the Magistrate, and ordered that he be placed in the State Hospital there to be confined until he recovers his senses, of which the City Court shall be satisfied, and by that Court discharged in due course of law.

Mr. Wickliffe, we are gratified to learn, has so far recovered from the effects of his wound as to be able to leave Baltimore for Washington, and arrived at his residence on Friday.—*N. Y. Cour. & Eng'r.*

Launch.—The beautiful packet ship "Queen of the West, 1250 tons burthen, was launched on Saturday afternoon from the ship yard of Messrs. Brown & Bell, foot of Stanton street. She is intended to take a place in Messrs. Woodhull & Minturns' new line of Liverpool packets. This is the largest merchant vessel ever built in this port, and the fact of her being launched with all her masts and spars standing, drew an immense concourse of spectators, notwithstanding the weather was stormy and unfavourable.—*ib.*

Poisoning.—A negro girl, named Rosanna Kean, was arrested last week in Greenwich, N. J., charged with having procured the death of Enos Seely, Esq., of Bridgetown, in whose family she was serving, by administering poison to him. Mrs. Seely, who had also partaken of the poison, narrowly escaped. The object of the girl was to secure some few hundred dollars which she knew to be in their possession.—*ib.*

Princeton Fugitive Slave Case.—A colored man—James Johnson—who was arrested in Princeton a few days since, in behalf of Mr. Thomas, of Mississippi, as a fugitive slave from Maryland, and who has lived worthily about Princeton for the last five years, was brought before Justice Lowry on Monday afternoon, and demanded a trial by Jury under the humane act of our Legislature, his counsel being Wm. C. Alexander and Edward Armstrong, Esqs. Mr. Thomas was represented by J. T. Wallace of the Baltimore bar, and J. F. Hagerman, Esq.

The council for the claimant objected that the State law is unconstitutional, being in conflict with the act of Congress, which provides that fugitives be taken for examination before a Magistrate, who alone is to decide upon the testimony, and that no State has concurrent jurisdiction in the case. They cited the Peggs case recently decided by the U. S. Supreme Court, which it was held proved the unconstitutionality of the Jersey act.

Justice Lowry, however, did not feel authorized to set aside an act of the Legislature, and decided in favor of a Jury trial. The act itself imposes a fine of \$500 upon any magistrate who shall refuse it. The trial was accordingly ordered on, and Mr. J. T. Wallace, being called as a witness for the claimant, unequivocally identified James, as a slave belonging to claimant—that it had been his duty to wait upon witnesses on all occasions, and that he was as sure of his identity, as of that of his own father and, could not be mistaken.

The counsel for James urged the question of identity, but the Jury after half an hour's absence returned a verdict for the claimants. We learn further by the Philadelphia Inquirer, that \$300 has been offered for James' freedom, but the claimant asks \$550. He has been found so excellent and industrious a person, that this effort has been made to retain him in Princeton, where much sympathy has been felt for him.—*Newark Daily Advertiser.*

Exemplary Damages.—In the case of Maria F. Swank vs. John B. Zimmerman tried in the Supreme Court of this county on the 25th inst., the jury, after an absence of about two hours, returned a verdict of \$4,000 damages for the plaintiff. It was an action of slander. In the Common Pleas, the plaintiff recovered \$5,000 damages, from which the defendant appealed to the Supreme Court. The plaintiff is a young lady about 15 years of age, and the defendant a wealthy man residing in Hocking county. Upon the bringing in of the verdict, the plaintiff by her counsel remitted \$2,000—the amount she had put in her bill. It is the most extraordinary case of exemplary damages for defamation of character ever tried in Northwestern Ohio.

Sandusky Democrat.

Wool.—The farmers of Washington County, Pa. have received \$200,000 for their clip of wool this season. We conjecture that the same amount of cash could not be obtained in any other agricultural business at so small an outlay of capital and labor. Less wool by some eighty millions of pounds will be imported this year than last, which should induce every farmer to be sparing in selling his sheep to the butchers, and to increase his flock. It is important to the country to produce an amount of wool fully equal to home consumption. Now is the time for sowing field turnips, and every wool grower should raise enough of this vegetable to aid materially in carrying his sheep safely through our long winters.

Counterfeit \$3 bills of the Bank of Brunswick, Me., are in circulation.

OUTRAGE ON THE LEHIGH.—The coal boatmen on the Lehigh Canal, have for several weeks refused to work, unless their wages are raised, or to permit others to work.

On Monday an attempt was made by some of the well disposed citizens of Easton, to pass some of the coal loaded boats down to market. They were led by Mr. Parker, a member of the Legislature. The moment they were discovered, they were attacked by a mob of the strikers. Mr. Parker was knocked overboard, and escaped by swimming to the opposite bank, and his friends were dispersed with volleys of stones—the rioters remaining then, and still the masters of the field.

FIRE.—On Wednesday night, Aug. 2, the Tannery Burnham Village, Me. was destroyed by fire. Loss property estimated at \$25,000—insurance \$7000.—This is the second time within a few years that the Tannery at that village has been consumed by fire.

BROWN UNIVERSITY.—We learn from the Providence Journal, that William G. Goddard has been elected a member of the Board of Fellows and Secretary of the Corporation, vice Theron Metcalf, Esq. of Dedham, resigned, Alexander Duncan and Rev. Alva Woods, D. D., have been elected Members of the Board of Trustees, in place of Wm G. Goddard and John Carter Brown, elected to the Board of Fellows. President Wayland has lately given to the University the sum of \$1000, to be awarded for excellence in the studies preparatory to admission in the Freshman Class. The University is in a sound state, and its prospects are encouraging.

Mr. Oliver Spencer, of the firm of SPENCER and HURD, the jewellers in Philadelphia, whose store was broken open and robbed on Sunday the 30th ult. has been arrested on suspicion of being the robber. The accused was to be examined on Saturday last, and was held to bail in \$10,000.

THREE SUICIDES AT STEUBENVILLE, OHIO.—A young man named Andrews, one of the firm of A. H. Andrews & Co., wholesale grocers of Steubenville, Ohio, and son of Martin Andrews, Esq. cut his throat with his razor on Friday last. He was one of the wealthiest and most respectable men of the place, had been but a short time married, and had just returned from a tour to Europe. He went to a stable and deliberately cut his throat. No cause is assigned for the rash act.

A man named J. Norris committed suicide on Saturday, also at Steubenville, by cutting his throat.

A third individual named Bernard Armstrong, hung himself on the same day, about three miles below Steubenville, on Potter's farm.

Three suicides in so short a time at one place—there must be something in the atmosphere that drives men mad.

Boston Atlas.

THE WEATHER.—For more than six weeks, vegetation throughout the Cape has been suffering from severe drought, and many of our most necessary productions have been so checked in their growth, that they will be but little benefited by the copious and refreshing showers of the present week. During the time above named, we have had two or three showers but they were so slight as only to moisten the surface of the ground.—*Barnstable Patriot.*

In the New York Police Court on Friday, officers Cockfair and Stockley brought up two individuals, James Bergen and Jeremiah G. Hamilton, charged on the oath of Richard Sutton, with a conspiracy to defraud the Atlantic Insurance Co. They were held to bail in the sum of \$10,000.

The venerable James Richards, D. D., President of the Auburn Theological Seminary, died at his residence in the village of Auburn, on Wednesday last, in the 76th year of his age.

FLORAL CURIOSITY.—We have often heard of a white blackbird, but never till now of a green rose; yet such a one has been produced in Bladen, North Carolina. This change in the color of the flower is supposed to have been effected by setting out a common daily rose bush in the spot from whence a sumach bush had just been removed and it is believed that the roots of the two mingled.

Augusta (Georgia) Chronicle.

A horrible mode of death.—The Toronto Constitutionalist says that a young man named Bailey, a prisoner in the Penitentiary, in consequence of insubordination, was placed for punishment in a cistern when he was necessary that he should work, in order to prevent the water overrunning him, and that during the process he was overpowered by the water and drowned.

Accident.—Alonzo Molen, a lad fourteen years of age, employed in the wool ten mill in Brunswick, Me., was accidentally caught a few days since in a picking machine, which was revolving with great velocity, whereby his right hand was badly lacerated. Three of the fingers were cut off, and the fourth was broken and otherwise injured, and the back of the hand badly torn.

Copper, to the amount of more than forty thousand pounds, has been shipped from Wisconsin the past year.

PROGRESS OF FORGERY.—A Pittsburgh merchant, name not given, who has hitherto borne an irreproachable character, and was reputed wealthy, by means of a forged receipt for a lot of flour alleged to have been sent to a Baltimore house for sale, obtained an advance from another merchant of eight hundred dollars, and "failing" shortly after, he absconded, and it is said, is now on his way to Canada. He has a large circle of friends and connections in Pittsburgh.

Villainous Assault.—On Monday evening last, about ten o'clock, the wife of Samuel Hall, Esq., and two daughters, in a chaise, returning to their residence on Little Harbor road, were stopped at the northwest corner of the South burying ground, by a man, who inquired the way to Portsmouth. The man immediately seized the reins, jumped into the chaise, and assaulted the ladies in the roughest manner, tearing their clothes, and forcing them to jump from the chaise. They made a loud outcry, and the villain thought it prudent to escape.—*Portsmouth (N. H.) Journal.*

GENERAL COURT MARTIAL.—Trial of Major Payne.—The Army and Navy Chronicle of the 3d contains the finding and sentence of the Court Martial held at Fort Columbus in April, for the trial of Major M. M. Payne. The charges were, neglect of duty, disobedience of orders, insubordinate conduct, and disrespectful behavior to his commanding officer. The specifications were, neglect to visit the forts to the command of which he was assigned, neglect to inspect the troops under his command, neglect and refusal to give certain receipts for clothing, and neglect to report a soldier for trial on the charge of desertion;—refusal to forward inspection reports, and refusal to perform the duties devolving upon him as commanding officer;—persistence in declaring himself relieved from a command to which he was assigned;—and writing two disrespectful letters to General Wool.

The Court found Major Payne guilty of the first charge, not guilty of the second, guilty of the third and fourth; and sentenced him to be reprimanded in general orders—justifying this light sentence by expressing the conviction that Major Payne's misconduct proceeded from erroneous opinions entertained by him, and that he was subjected to the unnecessary exercise of authority.

General Scott approves the finding and sentence, but reluctantly; holding them to be inconsistent with each other and the sentence much too light for the offences proved—and he reads the members of the Court a tolerable sharp lecture upon the erroneous principles developed in its action.—*N. Y. Com. Adv.*

LATER FROM SOUTH AMERICA.—By the U. S. ship of war Yorktown, Commander J. S. Nichols, we have advices from Rio de Janeiro to June 27. It is quiet at Rio Janeiro, and nearly all the neighborhood. In the province of Minas Geraes they still keep up the insurrection. There have been a number of skirmishes between the Rebels and Imperialists, which, however, amounted to nothing. The mines are lying idle throughout the whole province in consequence, which causes a great deal of want among the poorer classes, who are mainly dependent upon them for subsistence.

Advices from Rio Grande to the 24th state that the rebellion at that place is assuming a fierce and bloody aspect. Gen. Henrique, the commander of the Rebel forces has determined to take the town and province of Rio Grande or perish in the attempt. The Rebel forces amount to about 3000, and are increasing daily. They are well armed and mounted, while the Imperialists, who are encamped about the town of Rio Grande, are nearly all negroes, and those who are not, have been pressed into the army; they number nearly double their opponents, but numbers are deserting to the Rebel camp, (which is about fifteen miles from Rio Grande,) feeling confident that party will be victorious from their knowledge of the troops and their commander. Skirmishes occur daily, and a great deal of blood is shed. Nothing is known of what are intentions of the Rebel leader in postponing the battle so long. There must, however, something occur soon, as things cannot remain so long.

[N. Y. Tribune.]

Riot in Cincinnati.—We learn from the Cincinnati Gazette that there was another mob in that city on Monday evening of last week, occasioned by a negro girl having been brought to that city by a Mr. Schalan, and who was subsequently induced to run away from him. He published a card—a meeting of citizens was called, who after much excitement and some inflammatory speeches, dispersed at 9 o'clock. A mob then collected in front of Mr. Burnett's house, and attacked it with stones and clubs, doing much injury to the windows in the upper stories and the shutters of the store. Some of the ringleaders, however, were arrested by the Mayor and posse, and committed to jail for trial. The Mayor, who appears to have acted with great energy and vigor, was struck in the side by a brickbat, during the affray.

The New Orleans Bee of the 18th ult. says two thirds of the inhabitants of that city are sick with the influenza.

THE NEW COURT HOUSE IN WORCESTER, will be 56 feet by 108, and is to cost \$65,500.

DARING BURGLARY.—Yesterday morning the hardware store of Mr. Baker, No. 99 Canal street, was entered by means of false keys. This was done in the broad face of day, while persons were continually passing. Mr. Baker, who resides in the same building, was absent at church, and this circumstance must have been known to the thieves, as it was the only time during the week that such an occurrence could have taken place, without finding an inmate in the store. The thieves, two in number, were seen to enter by Mr. Bell, who resides opposite. He thought the circumstance suspicious, sought assistance, and promptly, (but not without much resistance,) secured the villains, while in the act of plunder. They had possession of the contents of the money drawer, about twenty dollars, but had not yet found the cash which had evidently tempted their cupidity—about one thousand dollars, in gold and silver, which happened at this time to be in the store. The robbers are safely lodged in the toms.—*[N. Y. Jour. of Com.]*

The President of the United States came up yesterday from Old Point, agreeably to an invitation from the citizens of Portsmouth, attended by Colonel Walbach of the Army, and Colonel De Rusey and Colonel Totten of the Engineer Corps. He was met at the wharf by a large concourse of citizens and the volunteer companies of Portsmouth, (who made a handsome display on the occasion) and was received by the Committee of Invitation with an address from their chairman, Dr. William Collins to which the President responded, we are informed in a very handsome and appropriate style. He was then escorted by the volunteers to the Chawford House, where he received the salutations of the citizens who called to pay their respects, and was entertained at a sumptuous collation, prepared by Mr. Parker, in excellent taste. The President, we learn, passed the evening, *en famille* with Dr. Collins.

We learn from last evening's Chronicle, that During the day a committee from the various Mechanical departments in the Navy Yard, waited upon the President, to express their gratitude for the interest he has taken in their behalf. They made an excellent address, to which the President returned a most eloquent reply.

Norfolk Herald.

Extraordinary Longevity.—The Wheeling Gazette announces the death of Mrs. Elizabeth House, at the age of 110 years, lacking a few months. She was born near Annapolis, Md., where she resided until 1778, when she removed to Jefferson county, Va., where she remained until the spring of 1801. She then, in company with her son-in-law, removed to Kentucky, and in the fall of the same year to Ohio county, Va., where she resided until the day of her death.

During the whole of her long life she enjoyed almost uninterrupted good health. She never was bled; nor did she ever take a dose of calomel. She could read the finest print up to the time of her decease. The only books she ever read were the Bible and the Common Prayer Book.

SUDDEN DEATH.—Mr. John Alden of Fairhaven, was found dead in a field near his house, on Tuesday afternoon. He had left the house about two hours before, as well as he had been for some months. There was no suspicion of violence, and the probability is that he died in a fit. He was 70 years old.—*New Bedford Register.*

NAVAL.—The U. S. sloop of war Decatur, Commander Abbott, bound for the coast of Africa, sailed from the naval anchorage at Norfolk, Va. on Saturday morning, the 5th inst.

The U. S. steam frigate Missouri, Capt. Newton, for Alexandria, left the Hon. Caleb Cushing on board, left the naval anchorage on the afternoon of the same day.

The U. S. frigate Columbia was at Rio, June 28; all well.

The U. S. ship Delaware sailed from Gibraltar on the 26th of June, for Mahon.

The Secretary of the Navy has changed the term of naval command to two years instead of three. The object of these alterations is to make a more equal distribution of sea service among the naval officers.

Robbery at Amoskeag, N. H.—We learn from the Manchester Democrat that the counting-room belonging to the Amoskeag Manufacturing Company, at Amoskeag village, was entered by a villain on Saturday night last, and robbed of forty or fifty dollars.

Grape of the Valley of Canaan.—We yesterday saw a single grape sold for three dollars! It came from the garden of Mr. Lenex. These grapes, thus offered for sale, are the largest we ever beheld, weighing some of them five or six pounds. This may appear incredible, but it is strictly true.—*New Orleans Courier.*

The slave trade.—A Spanish Guinea man landed 450 slaves at Trinidad, Cuba, on the 2d June, and immediately commenced refitting for another voyage. The vessel and cargo were the property of Don Pedro Blanco, a notorious slave merchant.

During twenty-five years of steamboat navigation, on the Western waters, from 1816 to 1841, two hundred and twenty-eight accidents have occurred, causing the loss of 1700 lives! Of these accidents, 99 were by explosions and collapses; 28 by fire; 25 by shipwreck, from gales, collisions, &c.; 25 from snags and sawyers, and 24 from different and unknown causes.

Violent Storm.

The storm which was experienced in this neighborhood on Sunday morning, began at Baltimore in the forenoon of Saturday. It struck Philadelphia the same afternoon, and in the evening its ravages became tremendous. The Philadelphia Chronicle gives the following details of the effects of the wind and flood on land.

Our city was visited on Saturday with one of the most terrific storms that has occurred for many years. It commenced raining early in the morning, with a fresh gale from the ENE, and continued, with occasional intermission, throughout the day. Towards afternoon the wind hauled to the ESE, and the sky was obscured by dense masses of clouds, which so darkened the atmosphere that we were obliged at 4 o'clock to light the gas burners in our office, in order to continue our daily avocations. A few minutes before six o'clock, the clouds apparently began to thin in the west, and we were congratulating ourselves upon the prospect of a speedy termination of the rain, when the delusion quickly vanished. The rain began to pour. The flood gates of heaven appeared to have been suddenly opened, and an immense torrent of water came rushing down, which continued incessantly for two hours. It was a perfect deluge. Sharp flashes of lightning occasionally gleamed through the atmosphere, and tremendous peals of thunder mingled with the roar of the wind and the rushing of the waters. Many of our streets were inundated; great destruction of property, with the loss of life, and much personal distress, has been the consequence. The quantity of water which fell, and the extent of damage done, throughout the city and vicinity, has far exceeded the great thunder, lightning, and rain storm of the night of the 1st July, 1842. The north-east and north-west section of the city and suburbs, have suffered to an immense extent; houses have been unroofed, and blown down; board yards and coal wharves swept away; shipping disabled and dismantled; cellars inundated, and a vast amount of property partially ruined or totally destroyed. Philadelphia has not suffered such a calamity within our memory.

It is impossible, at present, to make any correct estimate of the amount of the loss.—Suffice it to say that it is immense, and there is no reasonable means of calculating its extent at present, but we are fearful that it falls with severity upon those who are least able to bear such a calamity.

The storm at the south.—The Philadelphia papers state that the destruction of bridges, factories, &c. &c., in Delaware county, Pa., is estimated at \$500,000. On Darby, Crum, and Chester creeks, the flood swept everything before it; scarcely a bridge, dam, or mill on either of them escaped total destruction. Fifty-six bridges (some of them erected at great cost) are known to have been swept off. But the loss of property, terrible as it is, is inconceivable to the loss of life with which this affliction of Providence has been attended. It is believed that not less than twenty, and probably as many more, persons have been drowned. At one place on the Chester creek, an entire family, that of Mr. Rhoads, consisting of himself, wife, and two small children, found it impossible, so instantaneous was the rise and rush of the torrent, to escape from the house, and all perished. Several bodies have been found upon the shore and in the meadows.—This fatality is to be ascribed to the unparalleled suddenness of the rise of the water. It was as if the earth had opened forth her secret flood. Scarcely was the presence of danger known before it was followed by the absence of hope. Hundreds of hair-breadth escapes are narrated. The whole country is overspread with gloom, and the consequences of the night's calamities will long overshadow the prosperity of that lovely section of country.

At Baltimore, we learn from the Republican of Monday, the heavy rain caused considerable damage. In Old Town several houses sustained injury by the washing away of the foundations and the falling of the walls. Harford Run overflowed its banks, and the neighboring cellars were filled with water, property destroyed, &c. In Gay street a number of cellars were deluged, causing more or less injury. In one, containing a large quantity of leather, considerable loss was sustained.

SOMNAMBULISM.—On Monday morning last, about 2 o'clock, a Mr. Webster, a man about 30 years of age, a shoemaker in the employ of Mr. Samuel Fairbanks, in this village, who occupied a room in the 3d story of the building as a sleeping apartment, arose in his sleep, dressed himself, and in attempting to descend a flight of stairs on the outside of the building, fell to the ground, fracturing his skull badly, and partially injuring one limb. He was trepanned by Drs. Blom and Craze, and hopes are entertained of his recovering.

Watertown (N. Y.) Journal.

A LARGE ISLAND DISCOVERED IN THE PACIFIC.—The U. S. sloop of war Boston just arrived at Boston, brings intelligence that Captain George E. Neicher, of whaling bark Isabella, of Fair Haven, reported at Tahiti, April 12th, the discovery of a beautiful fertile island, extending about 40 miles from northeast to southwest. He named it "Eadie's Island," after the man who first discovered it—not being laid down in the charts. This island is situated in south latitude 11 05, west longitude 165 05.

The men who committed the late robbery in Warren, have been apprehended in New York, and were brought on Sunday in custody of Mr. Johnson, Sheriff of Bristol county. A considerable portion of the stolen property was recovered.

OUTRAGE.—An outrage of an aggravated character occurred at Rochester, N. Y. about 10 o'clock, on Wednesday night. Two respectable young ladies were returning from the Fair at the Market, accompanied by a colored man in the capacity of a servant, whom they had ordered to come for them at that hour. While proceeding quietly on their way, the colored man was assaulted by a gang of rowdies and knocked down three times. A cry was raised for the watch which caused the ruffians to scatter.—The ladies took refuge in a neighboring grocery. The cause assigned for this brutal assault was that it was a case of amalgamation, although the ladies told the ruffians repeatedly that the colored man was only a servant attending them by their orders. Such outrages deserve the severest punishment.

A Proper and Important Decision.—A London paper says:—"Sir J. K. Bruce gave judgment in the Vice Chancellor's Court last week on a point respecting wills. A testator in 1834 made a will, by which he gave a share of his estate to his daughter and her issue, but by a codicil, added in 1836, he provided that his property should pass over to other persons if his daughter should ever marry. The daughter did marry, and the 'other persons' stepped forward to claim the money. The Judge said that all such restraints upon marriages were void by the English law; and the declaration of the Court was that the lady should keep the money."

A Clergyman Arrested for Forgery.—The Rochester Democrat of Saturday mentions that the Rev. P. Backus, a Methodist preacher, belonging to the Oneida Conference, was arrested on Friday in the town of Gates, on a charge of forging two notes to the amount of 1400 dollars, on one of the banks of Utica.—The prisoner it appears has been residing for two years past in the village of Shorburne, Chenango county, where he was engaged in the duties of his profession. About the first of June he committed the forgery, and fearing detection he came some weeks after to the town of Gates in this county. About 1000 dollars of the money had been paid to his creditors, and the remaining 400 dollars expended in lottery tickets, by means of which he hoped to obtain sufficient funds to cancel the notes when due. In his trunk were found some thirty or forty pages in manuscript purporting to be an account of his life, which he intended to finish and then surrender himself to justice. He left for Utica on Friday evening.

Dr. Jacob Bigelow has furnished for the Boston Medical Journal, the details of Mr. Legare's disease, and the condition of the patient during his last illness. Strangulated intestines, produced by sedentary habits, was the immediate cause of his death, as every effort to relieve the patient proved unavailing. Dr. Bigelow remarked that about half an hour before his death he got up from his bed without assistance, and upon lying down again earnestly asked for water. On receiving it, he pushed it away, saying it was filled with ants. A white paper was shown him, and he made the same remark. On being told it was an illusion of the sight, he put forth his hand for the glass, but missed it, said a few words incoherently, leaned back and expired without a struggle. Upon a post mortem examination, it was found that the intestines were twisted four times, and that one of them was distended to the circumference of fifteen inches! The disease or obstruction was entirely beyond medical aid.

The Elephants at Bristol Ferry.—A correspondent of the New Haven Herald, at Bristol, R. I. gives the following description of the crossing of the Ferry by the Elephants of Messrs Raymond & Co's Menagerie. The letter is dated July 30.

Raymond & Company's Menagerie, headed by that celebrated Lion Tamer, Herr Driesbach, had been to Fall River to exhibit for the benefit of the sufferers, and was about to come to Bristol for the same purpose, but before they could do that, and in order to save going much out of their way by land, were obliged to cross the Ferry from the opposite side, which is a good mile over. Ferry boats being on hand for the purpose of conveying the elephants and the rest of the troops across they began to embark, but lo, and behold, when it came to the turn of their Elephantships to do so, three out of the four indignantly refused to obey. One, however, being on board, and all being ready, the boat put off, when unceremoniously the three, without blowing their noses or even taking off their clothes, gallantly plunged head and ears into the water, carrying in majestic grandeur their elegant and useful trunks open upon their backs—in spite of the custom house officers, who stood by ready to inspect them and search for smuggled goods—and in a few moments swam to the Bristol shore, amid the cheering of the astonished and gaping multitude.

Hurrah! said the girls—hurrah! said the boys—Hurrah! said the men on the shore; Who ever did see big Elephants three Carry trunks o'er the water before.

Thomas Austin, a convict in the State's Prison in Providence, committed suicide, by hanging, on Sunday morning last.—He was a foreigner, and sentenced last spring to a term of five years imprisonment.

CINCINNATI has increased 2000 houses, and 13,000 inhabitants within three years.

Eastern District.

An adjourned meeting of the Law Order Convention for the Eastern District, held at the State House in Providence on Thursday, August 10th, the following named gentlemen took their seats as members from the several towns:

Newport—Henry Y. Cranston, Richard Randolph, Edward W. Lawton, Silas Atwell, Joseph B. Weaver, John A. Zard.

Providence—Albert C. Greene, Stephen Auch, Charles F. Tillinghast, Samuel A. S., William Sheldon, William G. Eldard, James Y. Smith, Jacob T. Taber.

North Providence—Andrew Almy, Ephraim Randall, Edward Randall, Joseph Miller.

Wickford—Nathan B. Sprague, George Drich, Holder C. Weeden, George L. Ames, Charles Moies, Samuel Clarke, James Nowry.

Cumberland—Samuel F. Man, Otis Mason, Jeremiah Whipple, Willis Cook.

Barrington—Emerson Humphrey, Lewis B. Smith.

Warren—Suchet Mauran, James Coffey, Geo. G. Hazard.

Bristol—George Pearce, Gardner Wilford, Jacob Babbitt, Jr.

Tiverton—James Manchester, John Manchester, Joseph Osborn.

Little Compton—John Church, Ezra Coe.

Portsmouth—John Manchester, Borden Chase.

Middletown—Benjamin Weaver, Peter Parker.

The Convention then proceeded to ballot. The Hon. HENRY Y. CRANSTON having been nominated, the following resolution was unanimously adopted:

Resolved, That this Convention unanimously approve of the nomination of the Hon. HENRY Y. CRANSTON, and that the members will use all fair and honorable means to secure his election.

The convention then adjourned until next day.

RICHARD K. RANDOLPH, Pres. EDWARD H. HAZARD, Secretary.

State Elections.

NORTH CAROLINA.—The Election in this State for 9 members of Congress took place on the 3d inst.—The returns come in slowly, the following is all that has yet reached us:—James M'Kay (Dem.) is re-elected without opposition in the 6th District.

Archibald Arington (Demo) is elected in place of Mr. Stanley (W.) in the 8th District.

Kenneth Rayner (W.) is re-elected over Mr. Moore (Dem.) in the 9th District.

In the 5th District, Saunders (Dem.) is 65 ahead of Miller (W.) 3 counties yet to come in.—Result doubtful.

In the 7th District, Daniels (Demo) has 661—Nash, (W.) 658—four counties to hear from, Daniel is probably elected.

The 1st and 4th districts are undoubtedly Whig as the majority in each is large, and all the candidates are Whigs.

THE WEATHER.—

Since our last, we have had frequent rains and the pastures and cultivated grounds have resumed their verdant attire.—The prospect is auspicious for a good harvest.

DROWNED.—

An Irish boy named John, aged 7 years, son of Patrick Murphy, fell in the dock from the wharf opposite the Custom House, on Monday night last, and was drowned. He was found the next morning, and an inquest held by J. C. Shaw, Esq. coroner. Verdict of the Jury—"accidental drowning."

Loss of Sch'r Ohio.

The Sch'r Ohio, Capt. Smiley, of this port, on a sealing voyage, was cast away on the Coast of Patagonia on the 16th of March, while standing from White Bay for Patagonia in Rio Negro.—Her three boats were stove at the same time. A letter in the N. Y. Herald from one of her crew gives some further particulars.

The crew, twenty-five in number, had thus no resource left but the building of a raft, which they attempted. When finished, however, it would only support properly eight persons. They all, however, excepting the captain, Mr. Smiley, who agreed to stay by the wreck, and Capt. Gough, embarked upon it, but it was almost immediately upset by the waves, and they were obliged to return to the vessel. After this experiment, they all preferred to remain by the wreck, but as it was necessary for the safety of the whole that some of them should seek assistance on the raft, Capt. S. volunteered to embark on it, and was joined by six men, who drew lots from the whole number. These seven then left the vessel.

The vessel went to pieces the same night. All the crew were saved on different fragments, however, and the next day landed on an island. For five days they suffered intensely from thirst and hunger, but then succeeded in procuring bread and water from the wreck. Two of their number were lost in attempting to swim to the main land, and the cook died crazy for want of water, but the remainder, after having been a week on the island, were taken off in a boat, in which Capt. Gough and four of their shipmates, of the raft's crew came in search of them.

It does not appear where the raft landed, but the probability is that all its crew were saved.

CONSECRATION.—

The consecration of the Rev. Mr. Henshaw, as Bishop of the Episcopal Church of Rhode Island, took place at Grace Church in Providence yesterday.

U. S. BRIG LAWRENCE was launched

at Baltimore on Tuesday week. The Vessel, says the Patriot, is a specimen of substantial and elegant workmanship.—Her length is 114 feet, breadth 20 feet 8 inches, depth 13 feet 3 inches, and her tonnage 264 tons. When she left the stocks, and met her destined element, she had all the flags of our country flying in their proper places, and on the foremast was a flag, exhibiting the appropriate and ever memorable words—"don't give up the ship."

THE INDIAN TRIBE.—

It is expected that there will be a meeting of the Narragansett Indian tribe at their meeting-house in Charlestown on Sunday next.—It will probably be larger than any that there will ever be hereafter, as several very active members of the tribe contemplate removing to join their brethren at Green Bay, in Wisconsin Territory, where a great many of them are already settled, and one of them, Thomas Cummock, is postmaster.

The meeting on Sunday will be a religious meeting, and probably be very fully attended. The Rev. Moses Stanton, the Indian minister, will preach.—After that, the committee appointed by the Legislature to examine into the condition of the tribe, consisting of Messrs. Updike, Randolph, Dixon, and E. R. Potter, will have a meeting for business. Providence Journal.

MARINE DISASTER.—

Sealing aches, Sarah Ann, Gough, and Ohio, Smiley of Newport, were wrecked on the Coast of Patagonia in December last. The particulars of their loss have not transpired, although the Sarah Ann, with Smiley reported master, was reported at Rio Janero as long ago as June 11, and again June 15, Gough, master. It is inferred that the Sarah Ann was first wrecked, and her crew taken on board the Ohio, which was afterwards wrecked; and those who remained of their crews refitted the Sarah Ann, and proceeded to R. J.

The Ohio is stated to have been wrecked on Gammy Shoals, coast of Patagonia, Dec. 7, 1843, at 10 A. M. and the following persons drowned: Peter Powers, seaman, of the Sarah Ann; James Sherman and Thos. Bynard, seamen, and Edw. Lanson, cook, of the Ohio. Thos. Ogilvy, was killed two days after in an orchard at "Rio Nigger," by a negro slave. Boston Advertiser.

According to the 24th annual report

of the Missionary Society of the Methodist Episcopal Church have 325 missionaries employed, and of these 250 are engaged in the home field, this side of the Rocky Mountains. Of these 20 are among the Germans, 40 among the Indians, 55 among the slaves at the South, and about 135 "in the destitute portions of the regular work." The "foreign fields" are Oregon, Texas, Liberia, and Buenos Ayres. In Oregon 7 clerical and 11 lay missionaries are employed. The laymen are teachers, physicians, farmers, and mechanics. In Liberia there are 27 missionaries, none of whom are laymen.—The residue of the missionaries are in Texas, with the exception of one minister who is stationed at Buenos Ayres.

DEDICATION.—

The new Baptist meeting-house, erected by the munificence of John Allen, Esq., of Centerville, for the Warwick and Coventry Baptist Church, over which Rev. E. K. Fuller, formerly of this city, is pastor, will be dedicated to the worship of Almighty God on Thursday the 17th instant. Services to commence at two o'clock P. M. Sermon by Rev. J. DOWLING, of this city. Ministers and other brethren are respectfully invited to attend.—Providence Journal.

STANZAS.

BY MRS. KATHARINE AUGUSTA WARE.

"A grief that passeth show."

I saw a pale young mother bending o'er
Her first-born hope: its beaming eyes were
closed.
Not in the balmy dream of downy rest—
In Death's embrace the shrouded babe re-
posed;

It slept that dreamless sleep that wakes no
more!
A low sigh struggled in her heaving breast.
But yet, she wept not. Hers was the deep
grief

The heart in its dark desolation feels,
Which breathes not in impassioned accents
wild.

But slowly the warm pulse of life congeals;
A grief, which from the world seeks no relief—
The last deep sigh o'er a departed child!

She gazed upon it with a steadfast eye,
That seemed to say—Oh! would I were
with thee!

As if her every earthly hope had fled
With that fair cherub! Even he,
Her young heart's choice; who breathed a fa-
ther's sigh

Of bitter anguish o'er the unconscious dead,
Felt not, while weeping by its funeral bier,
One pang so deep as hers, who shed no tear!

A Chronological Account

of all material occurrences from the first
settlement of RHODE ISLAND.

1699

This year Samuel Cranston, was chosen
Governor and John Greene, Deputy
Governor.

At the meeting of the Assembly, the
Governor laid before them, a letter from
Jahleel Brenton, the Colony's Agent in
England, informing them, of the efforts
then making by the colony of Connecticut
to obtain the Narragansett Country.

On the invitation of Connecticut, the
Assembly again appointed Commissioners
to settle the boundary.

The Lord Commissioners of Trade and
Plantations required a transcript of all
laws made by the Assembly. A copy
was made out and sent accordingly.

On the 19th of March, a ship called
the Adventure of London, bound for Bor-
neo, in India, with a valuable cargo, ar-
rived at the east end of Long Island, where
the person who acted as Captain, landed
with a large sum of money and sent a
pilot to bring the ship into Gardner's Bay,
but the wind not favoring they took her
to Block Island, and sent two men to
Newport to purchase a sloop, they after-
wards permitted the people from a num-
ber of boats and vessels to come on board
and take whatever they pleased. After
taking out the most valuable effects
the ship was abandoned. The crew
landed at Newport and dispersed them-
selves in the several colonies.

It appeared that the ship had been run
away with by the crew, who under com-
mand of the boatswain, had put the offi-
cers adrift in a boat.—On the news reach-
ing England, orders were sent out to have
all the parties concerned in the piracy,
arrested and sent home, for trial. The
principal actors were arrested in the dif-
ferent Colonies, in which they had taken
refuge, and sent to England where they
were tried and executed as pirates.

The notorious pirate, Capt. William
Kidd, was arrested, at Boston.

1700.

This year Samuel Cranston, was elec-
ted Governor and Walter Clarke, Deput-
y Governor.

The Assembly passed an act laying a
tax upon Pedlars.

An Act declaring the laws of England
in force "where no provision is made by
the acts of this Colony."

Rev. John Harden, Pastor of the 2d
Baptist Church in Newport died this
year.

The Friends Meeting House in New-
port was built this year, as was also that
in Portsmouth.

Yale College in Connecticut was found-
ed this year.—It was first established
at Killingworth, where it continued sev-
en years.

1701.

Samuel Cranston, was elected Govern-
or and Walter Clarke, Deputy Governor.
King James II died at St. Germans in
France on the 6th of September, in the
68th year of his age.

The Assembly passed acts for regula-
ting the Militia, for establishing a Coun-
cil of War, for raising a troop of Horse,
for regulating the detention of vessels at
the Port in Newport &c. &c.

Rev. James Clarke, was chosen Pas-
tor of the 2d Baptist Church in New-
port.

By a report made to the Society in
England "for propagating the gospel in
foreign parts" It appears that the inhabi-
tants of the Colony of Rhode Island, was
estimated this year at 10,000 souls ex-
clusive of Indians.

(To be Continued.)

* Capt. Kidd was the commander of a
vessel which sailed from New York to Lon-
don.—While in England he was sent to the
East Indies in a ship fitted out by Lord
Runny and others at an expense of £6000.
Kidd first sailed to New York to visit his
family; thence to the East Indies where he
committed many daring piracies and then
hid his booty on Long Island and other pla-
ces. In 1699 he boldly made his appearance
in Boston and gave an account of himself
to the Legislature. On the 6th of July he
was arrested. A man of war was sent to
transport Kidd and his associates to Eng-
land. He was executed May 23 1701 in
London. In 1705 Queen Ann gave his
effects amounting to £6472 to Greenwich
Hospital.

Agricultural.

BUSHES.

In many parts of our country, the
pasture grounds are infested, and often
overrun with noxious shrubs; this is
the most slovenly part of our husband-
ry, and ought to be cured.

Eradicating them, says Deane, re-
quires so much labor, that farmers are
most commonly content with cutting
them once in a few years. But the
more cutting they survive, the longer
lived they are apt to be; and harder to
kill, as the roots continually gain
strength.

It is undoubtedly true, that cutting
bushes in the summer will do more to-
wards destroying them, than doing it
at any other season, particularly in Au-
gust. Other circumstances being equal,
the wettest weather is best for destroy-
ing shrubs by cutting. Spreading
plaster on ground where bushes have
been cut may tend to check their re-
sprouting, by encouraging the growth
of grass.

It is said to be a good method of
destroying bushes, to cut them with
hoes close to the surface, when the
ground is frozen hard; and that more
may be destroyed in a day, in this
way, than in the usual method of cut-
ting with a bush scythe.

Bushes which grow in clusters, as
alder, &c., may be expeditiously pulled
up by oxen; and this is an effectual
way to subdue them.

Elder is considered harder to sub-
due than almost any other kind of
bush; mowing them five times in a
season, it is said will not kill them.—
The roots of the shrub oak will not be
killed by digging out.

To destroy bushes in swamps, flood-
ing two or three summers is the most
approved method. But if this is not
convenient, draining will so alter the
nature of the soil, that the shrubs,
which it naturally produced before,
will not be any longer nourished by it;
and one cutting may be sufficient.

After, all, extirpation, by digging
them out and by fire, is cheapest and
most effectual.

BEAUTIFUL EXPERIMENT WITH A
PLANT.—Cut a small branch of Oleander
from a thrifty plant, place it in a
vial partly filled with fresh rain water,
so that the lower end of the branch may
be immersed about half an inch in the
water. Place this in the sun in an
open room, and in about fifteen or
twenty days small roots will shoot out
from the end of the branch, presenting
a beautiful appearance. After these
roots have extended two or three in-
ches, the branch may be set out in
moist earth, and if frequently watered,
it will grow with great rapidity and
soon form a large thrifty stock.—
Ladies who are fond of flowers may
easily propagate Oleanders in this
manner, and in a few months multi-
ply these beautiful plants to an indefi-
nite extent.

LAWNS.

FRENCH STRIPED LAWNS, Just received

at No. 132 by J. M. COOK & Co.

DR. PETERS' Medicated Lozenges.

PETERS' COUGH LOZENGES are now
rapidly superseding all other pre-
parations for the relief of coughs, colds,
asthma, whooping coughs, tightness of
the chest, bronchitis, and similar pul-
monary affections.

Peters' Cordial Lozenges

Are a specific for the relief of nervous or sick
headache, lowness of spirits, or melancholy,
anguish and debility, either from previous dis-
ease or too free living, tremors, spasm of the
stomach, irritability of the nerves, hysterical
affection, drowsiness, cholera morbus, sense of
fatigue and palpitation of the heart. From
their efficacy in the relief of headache, they
are called by many the Headache Lozenge.

Peters' Worm Lozenges.

These are the desiderata so long required.
They are so perfectly pleasant to the taste and
gentle in their operations, that they may be
fearlessly administered to the youngest infant,
and yet no medicine heretofore discovered can
be named in comparison with it as a destroyer
of worms.

Peters' Cathartic or Health Lozenge.

These lozenges will be found perfectly ef-
ficient, speedy, and safe in their operation.
They purify the system, purge the blood of
every noxious substance, restore the functions
of the whole animal economy, and leave the
individual with a reinvigorated constitution.

As an alternative medicine, Peters' Health
Lozenge stands unrivalled. On the approach
of warm weather in the Spring they may be
taken by all with decided benefit; often pre-
venting a protracted sickness.

Peters' Vegetable Shilling Strengthening
Plaster.

This is not only the cheapest, but the best,
neatest, and most comfortable plaster in exis-
tence.

Peters' Shilling Plaster is an easy and most
effective remedy for pain in the breast, side,
or stomach, weakness or pain in the chest, loins,
or back, stiffness of the neck, affections of the
limbs or joints, whether produced by rheuma-
tism or other causes, habitual pain of the head
or stomach, piles, colds, coughs, liver com-
plaints, weakness of the spine, predisposition
to break out in biles and pimples, listlessness
of the frame; and for general debility.

Let any person afflicted as above try one of
Peters' Shilling Plasters, and we will venture
to say that he could not be prevailed on to dis-
card it again, for ten, or most probably for a
hundred dollars. Price 12 1-2 cents.

To the Whole World!

PETERS' PILLS.—It is admitted by all who
have used them (and who has not?) that Dr.
Peters' Vegetable Pills are the most unrivalled
medicine ever discovered by the ingenuity of
man. They are a sovereign cure for the fol-
lowing complaints:—Yellow and bilious fevers,
fever and ague, dyspepsia, croup, liver com-
plaint, sick headache, jaundice, asthma, dropsy,
rheumatism, enlargement of the spleen, piles,
colic, female obstructions, heartburn, furred
tongue, nausea, distension of the stomach and
bowels, incipient diarrhoea, flatulency, habit-
ual costiveness, loss of appetite, bloated or
sallow complexion, and all cases of torpor of
the bowels, where a cathartic or an aperient is
needed.

They are exceedingly mild in their opera-
tion, producing neither nausea, griping or de-
bility. Price 25 cents a box.

Come one, come all, and have your wills,
By patronizing PETERS' PILLS.

LUCINA CORDIAL.

MAGNIN'S LUCINA CORDIAL, for the
sure and speedy cure of incipient con-
sumption, barrenness, impotency, leucorrhoea
or whites, gleet, obstructed, difficult or painful
menstruation, incontinence of urine, or invol-
untary discharge thereof, and for the general
prostration of the system no matter whether
the result, of inherent causes, or of causes
produced by irregularity, illness, or accident.

The wide spread celebrity of this wonderful
and inestimable cordial in both hemispheres is
a sufficient guarantee for its quick and positive
success in curing all the above affections and
complaints. Nothing can be more surprising
than its invigorating effects on the human
frame. Persons all weakness and lassitude be-
fore taking it, at once become robust and ful-
of energy under its influence. It immediately
counteracts the nervousness or looseness of
the female frame, which is the only cause of
barrenness, and which, prior to Dr. Magnin's
discovery, was considered to be incurable.—
And it speedily removes the impediments pro-
duced by prostration, which frequently deter-
men from getting married. Language, indeed,
cannot do justice to the merits of the Lucina
Cordial, which is regarded by the heads of
the faculty in all parts of the world as one of
the most important medical discoveries of any
age. Price \$3 per bottle. Sold at No. 142

BECKWITH'S ANTI-DYSPEPTIC PILL.

THE ANTI-DYSPEPTIC PILLS have been more
successfully employed in almost every
variety of functional disorder of the stomach
Bowels, Liver and Spleen; such as heartburn
acid eructations, nausea, headache, pain and
distension of the Stomach and Bowels, incipient
Diarrhoea, colic, Jaundice, Flatulency
habitual costiveness, loss of appetite, sickhead-
ache, sea-sickness, &c. &c. They are a safe
and comfortable aperient for females during
pregnancy and subsequent confinement, re-
lieving sickness at the stomach, headaches
heartburn and many of the incidental nervous
affections. Literary men, students, and most
other persons of sedentary habits, find they
are convenient. Those who indulge too freely
in the pleasures of the Table, find speedy re-
lief from the sense of oppression and disten-
sion which follow, by taking the Pills. As
Dinner Pills they are invaluable. Those who
are drinking mineral waters, and particularly
those from southern climates, and ague and
fever districts, will find them a valuable ad-
junct. Those who are exposed to the vicissi-
tudes of weather on voyages or journeys, can
take them at all times with perfect safety. As
Full doses they are a highly efficacious and
Anti-bilious Medicine. They seldom or never
produce sickness at the stomach or griping.

TESTIMONIALS.

From the mass of evidence published in
favour of these pills, a few certificates are
selected (as many as the limits of an advertise-
ment will conveniently admit of) to show the
character of the Pills as well as of the Pro-
prietor, which last is deemed of some im-
portance to establish confidence, at a time when
the public are imposed on by so many igno-
rant and unprincipled empirics.

Duplin County, N. C. March 7, 1834.

To Dr John Beckwith:
Dear Sir,—I have with your permission
used your Anti-dyspeptic Pills in my Practice
ten years, and have thoroughly tested them
in my own person; for you know I was much
of a Dyspeptic and you will add, something of
a hypochondriac, and have found them an
invaluable remedy. My sick-headache is uni-
formly relieved by them. I feel the public
should be made acquainted with their value
and receive the benefits of a medicine calcu-
lated to do so much good, and to save them from
the too common and unadvised use of mer-
curial preparations. Truly yours,
ELLIAH CROSBY, M. D.

The following Testimonial of the claim of
these Pills to public patronage, has been
selected from many of similar import, recent-
ly furnished.
From the Rt. Rev. Levi S. Ives D., Bishop
of North Carolina.

Raleigh, March 2 1835

Having for the last three years, been inti-
mately acquainted with Dr. John Beckwith of
this city, and enjoyed his professional services
I take pleasure in stating that his character
Christian gentleman, and experienced Physi-
cian, entitles his testimony, in regard to the
use of his Anti-dyspeptic Pills, to the entire
confidence of that public. My experience of
the good effects of these Pills, for two year
past, satisfies me of their eminent value, par-
ticularly in aiding impaired digestion, and
warding off bilious attacks. Having been for
along time subject to the annual recurrence
of such attacks. I was in the habit of resorting
for security against them, and with very par-
tial success, to a liberal use of Calomel or
Blue Pill. But since my acquaintance with
the Anti-dyspeptic Pill of Dr. Beckwith, I
prescribed in the first instance himself, I have
not been under the necessity of using Mercury
in any form, besides being wholly exempt
from bilious attacks. Several members of my
family are experiencing the same beneficial
effects.
